

2<sup>nd</sup> lock down

We are having another lock down.

This is because too many people are getting sick from the

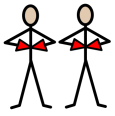

coronavirus.

We are having another lock down so that we can

stop the coronavirus spreading too fast and stop people getting

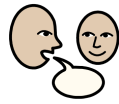

sick.

The lock down will last until 2nd December. After this

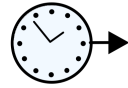

we

will be

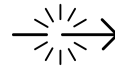

told

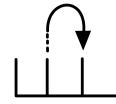

what is

going to

happen

next.

2<sup>nd</sup>

lock

down

is a little bit

different

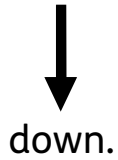

to the

1<sup>st</sup>

lock

The second

down.

I

will still be

going to

school

or

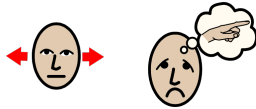

college

because these are

staying open.

This is so I don't miss out on my learning.

Shops are closed

again

except for

supermarkets.

I can

stay at

home

with

my

family

and

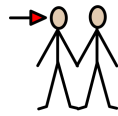

I can

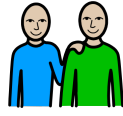

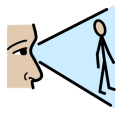

go

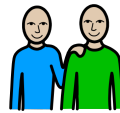

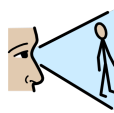

outside

for exercise with them.

I can see my friends at college.

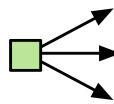

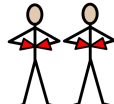

I am not allowed to see my friends or family that I

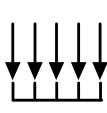

don't live with inside our houses or meet up with them in a

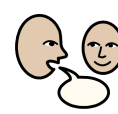

group.

This is to stop us from spreading the coronavirus and to

keep us all safe.

If I am worried about the lock down I can talk to my

family about this.
