Our Voice are proud to present our Q&A Panel session with the Heads of all the areas supporting children and young people (age 0-25) with Special Needs and Disabilities, in the London Borough of Enfield.

This online session will give parents and carers an exceptional opportunity to ask questions directly of the heads of services areas, including the Heads of SEND Services, Social Care / Joint Service for Disabled Children, Education, Educational Psychology Service, Health, CAMHS, Integrated Learning Disability Service, Transport and Travel Brokers.

When you book your place, you will also have the opportunity to request an individual 1:1 session with a professional from any of the Service areas (to discuss questions specific to your child), and will be asked to give your views on which workshops and events Our Voice should run for the rest of the year.
